Allen Players Coming

On Monday next, Feb 20th, we are to have another visit from the Allen Players. This company will be very favorably remembered by Coleman theatre goers for their high class productions. Miss Verna Felton is still the star of the company, and several new actors have been engaged since their last appearance here. The company is now stronger and better than ever before.

Manager Allen is carrying his own special baggage car this season and the company are thus in a position to offer entirely new scenery for each play they present for their opening bill here. "Merely Mary Anne" will presented. This bill was used with great success throughout America by several of the leading stock companies.

During their stay here, the Allen Players will also present "Magda" Hermann Sudermann's great success. "Magda" is a translation from the German novel "Heimat", and is recognized by critics to be one of the standard dramas of the present day.

Boxing Contest

A boxing contest will take place at the Miners' hall, Frank, on Tuesday next, Feb 21st, between that well-known middle-weight champion of the Pass, Jack Pigeon and Alf. Dragon. Doors open at 9 p.m. Contest starts at 10. For further particulars see posters.

Health Officer's Report

Gentlemen:

Since my appointment as Health Officer I beg to report that in company with John Sargent, Sanitary Inspector on January 5th, 1911, visited nearly all the shacks lying to the West of the town on 2nd street.

We found them almost without exception in an unsanitary condition and dangerous to the public health of the community.

In No. 73 shack we found that six (6) men occupied a room both as a sleeping and living apartment, and the room did not contain more than enough air space for one person, and it was also in a filthy condition. No. 74 shack was found to be small and filthy, with privy sewage underneath the dwelling part. No. 81 shack was very dirty and used as a sleeping

Concluded on Page 8

The five year old daughter of John Bulko of West Coleman was operated on for sole futility of her right foot, at the Miners' Hospital last Saturday. Mr. Beaven's little boy, Fels, also underwent a serious operation last Tuesday. Both children are progressing satisfactorily.

Council Meets

A special meeting of the town council took place on Tuesday in the council chamber All present.

A letter was read from the Chief of Police, tendering his resignation, and asking to be relieved from his duties at the end of the month.

Clark-James—That the resignation be accepted. Carried

Clark-Shone—That Corp. Hall, be appointed chief of police, sec-treas., etc.

A prolonged discussion took place. Councillor McDonald suggested that the offices of chief of police and fire chief be combined.

Councillor Clark said that it would upset the by-laws and other work that had already been done.

Eventually the motion was tabled and a committee consisting of Councillors Clark, Holmes, James, McDonald and Morris son.

Meeting adjourned.

The adjourned meeting of the council on Thursday night. There were present besides the Mayor, councillors Clark, James, Holmes and Morrison. The meeting was called to discuss the recommendation of the special committee appointed to make a selection of Chief of Police.

Councillor Clark stated that it had been proposed that the Fire Chief be relieved of his duties and the two offices combined into one. Clark-Holmes that the committee's recommendation, re dual appointment, be accepted.

This motion together with a proposal to merge the two offices into one now had a hearing made. At last Councillor Morrison proposed, seconded by Councillor James that the powers of the committee be given one week to merge a full report, at times several councillors looked most pugnacious but no hostilities occurred, owing to profuse oil thrown on the troubled waters by the Mayor.

There was also a statement made that two new men would be appointed secretary and treasurer, viz. J. Emerson and R. B. Buchanan.

There is now a feeling in the council that F. G. Graham should be retained as Fire Chief also that Corp. Hall be appointed Chief of Police, and Sec. Treas.

Mine Managers Meet

A large and representative body met at the imperial Hotel Frank on Wednesday last at the inauguration of the Alberta Mine Managers Association. The officers elected were W. P. Williams, manager of the Lille Mines, President; W. A. Davidson, manager of the Coleman Mines, Vice President and S. Shone, manager of the Frank Mine, Secretary-Treasurer.

The district embraced by this association includes the whole of Alberta and throughout the Crow's Nest Pass up to Fernie, B.C.

This association like others of its kind will take an active part in investigating anything that tends to affect the safe and efficient working of mining properties under varying conditions and encourage a free interchange ideas on mining topics. Efforts will be made by this association to have closer intercourse with the employees of the mines and so promote more friendly relations with all in regard to questions which cause disputes.

The letter received from Carl Basmier will appear next week.

Correspondence

To the Editor of the Miner Dear Sir:

I would like to say a little about the Fire Department. In the fall of 1905 when Mr. G. M. Tripp was overseer, the Coleman Fire Department was started, and we started with nothing, and we have today as good a fire department as there is any other town of Alberta of the same size. From then till now, there have been three overseers, and two councils up to the present. During this time there has been only three ratepayers on the Fire Department, C. P. Willmott, T. W. and Harry Gates, besides myself, and I have had to secure anywhere and everywhere I could pick them up. I have spent \$1000 in various ways, and the greater portion of my time in work for the Fire Department. In 1908 and 1909 the council granted me \$100, and \$110 in 1910. That will be paying the chief \$129 since 1905, leaving me a little less than \$700, behind. I have spent more money and time than all the council put together. Now it is fire protection I am looking for. Having the name of a Fire Department is no good for Coleman and I am willing to go as far as any ratepayer in Coleman for fire protection. I think the people will see that what I have done has not been for the name of a fire department only. The firemen have supplied funds amounting to about two hundred and seventy dollars for coats, caps, furniture etc. which is permanent stock, and cannot be removed from Fire Hall. This must show that they also have taken an interest in the Department. Now if the Town Council appoints a Fire Chief to do the work and look after the Department as it should be in the town of Coleman it is worth \$500, a year. They can appoint a Chief I believe for \$100, but pay the responsible man in that year are sure of and he is the cheapest man in the end. Any responsible man is good enough for me and the council do not need to consider me at all. I don't want the job at \$500. If the council will secure a competent man, but they must remember that with a volunteer Fire Department it is not the same as a paid Department. It is every man's responsibility to help out the Chief.

Well the strike is drawing near, and we expect to lose a lot of the boys, especially the fish eaters.

Skiing is the most popular sport in this town, now one of the boys went out on skis, with a gun and belt of cartridges and didn't bring back even a smile. Oh! you Carl.

Clark's Vaudeville Co., have been showing to crowded houses, at different towns of the Pass. The pictures and the orchestra have been extra good, and the audience change of program on Saturday night and the orchestra will be playing all the time.

Two Million May Die

Relief Urgently Needed in China. According to Consul-General Report

Washington, D. C., Feb. 10—

Unless relieved, 2,000,000 people in China will die of starvation.

This is the calamity predicted by Consul-General Wilder at Shanghai a cablegram received from him to-day by the American National Red Cross society. The consul-general appeals for quick assistance for the suffering people and says that a half million dollars is needed immediately. There will be no crops until the end of May, and Chinese relief is inadequate.

In describing the pitiful conditions, Mr. Wilder says the scenes in the famine district are horrible. Children are being given away by the afflicted people, dead lay on the roadside, and the misery of the sufferers is being increased by severe cold and snow. The famine area stretches a territory

300 by 150 miles.

The Shanghai relief committee

which has been formed to alleviate the condition of the starving inhabitants is trustworthy the general adds.

The Red Cross to-day called to China \$5,000, which was contributed by John D. Rockefeller.

Red Cross committee throughout the United States are collecting supplies to be sent to the stricken people on an army transport from Seattle, Wash.

Rev. T. M. Murray will be in Coleman to hold another contribution.

A few of our young men from Hillcrest took in the dance at Blairmore last Friday evening and returned home without an accident. The roads in the slide are pretty good now, eh! J. H.

There is one thing that sounds good around here again and that is the (tipple squeaking). We haven't heard it for three weeks until to-day.

Jim White one of the local sports from Hillcrest left for Vancouver last Wednesday.

John Fletcher has taken over the coal hauling business.

It's a long time since we had a smoker in Hillcrest, but we wouldn't be surprised, if we had one pretty soon. Hurry up Philip, don't be slow.

Some of the old timers were in town last week, Slim Barry, better known as slim, also Pat Kennedy, better known as spider.

IN BRITISH HOUSE.

Quite a Few Canadians Elected and But Three Defeated.

The number of Canadians who were candidates for election to the British House of Commons in the recent campaign was surprisingly large. And of these all it would seem that but three met with defeat—Mr. Bonar Law, Dr. J. E. Macdonald, Captain George Samuels, an old Trinity University man of Toronto, who contested a Scotch division for the Unionists. In fact, these three Canadians who met with defeat were Unionists. Dr. Molson has been twice elected in North-east Bethnal Green, and this is Captain Campbell's second defeat.

Sir Gilbert Parker, Unionist, was re-elected for Granville, and Mr. Donald McNaughton, Unionist, was returned unopposed for the Chertsey division of Surrey.

Mr. W. M. Attkin, Unionist, won Ashton-under-Lyne, for his party.

Mr. J. Alcock, Liberal, was re-elected in East Finchley.

Mr. Joseph Martin, Liberal, was re-elected in East St. Pancras.

Mr. Hanmer Greenwood, Liberal, was returned unopposed for Putney.

Dr. T. J. Macnamara, Liberal, was re-elected in North Camberwell.

Mr. Ian Malcolm, Unionist, was re-elected for Croydon.

He was born at

Captain E. Knight, Unionist, was re-elected for Kidderminster. He ranched for years in the Northwest and married a Winnipegan girl.

Major T. P. O'Connor, won, as usual, in the Shropshire division of Liverpool.

Sir J. Priestley, was re-elected as Liberal member for Bradford.

Mr. J. A. Colfax, Unionist, one of our recent victors, was defeated in St. Swithin's, Manchester.

The Hon. Ruperts Guinness, Unionist, who had just made a tour of the Dominion, was defeated at Shoreditch.

Sir Clement Kenloch-Cooke, another recent visitor, was elected another.

Mr. A. D. Steel-Maitland, Unionist, who recently spent some time in Canada, was re-elected in East Birmingham.

Major E. F. Coates, M.P., a former resident in Canada, was elected in South-West Lancashire.

Mr. L. S. Amery, Unionist, who travelled to Canada and married a Canadian girl, was defeated in Bow and Bromley.

Marketing Eel Grass.

During the last three or four months several hundred tons of eel grass have been exported from Yarmouth, Nova Scotia, to the United States, where it is sold at \$10 to \$12 per ton, while fresh from Yarmouth to Boston it is about \$1 per ton.

Last year's crop is now about clean up, but those engaged in gathering and curing in the district have been quite busy. The supply on hand is greatly larger than at the same time for a like date for any previous year. Two or three gatherers of this grass, who appear to monopolize the market, are keeping up a brisk trade. The gatherers what they cure, have erect mammoth sheds and are busy storing it away. They report that the market in the United States is still strong at this time, but that with the exception of a few small lots there will be very little exported during the coming year, and not a great deal until 1912.

Yarmouth is a very large buyer for this grass, where it is used in building, packing, cheap mattresses and mixing with other fibres. Efforts have been made, and are still being made, to grow it for rope, twine, rug and other materials for which straw and other grasses are used. It is stout, long, and of fine fibre, and it is suggested that it might be used to advantage in making mats. Hundreds and thousands of tons of it could be secured near Yarmouth every year, just for the gathering, along the seashore.

Daniel Wilson's House.

Dr. Daniel Wilson, afterwards principal of the University of Toronto, used in earlier days to live near Largs, in Scotland. One day Dr. John Beddoe (who has just written an autobiography) set out to find him. "Beddoe," he says, "was clear of the information at the house I inferred. St. Margaret's Lane, which I conceived must lead in the right direction, and meeting a gentleman just about to issue the receipt asked whether he could point me to Dr. Wilson's residence. He looked hard at me and inquired, 'Do you know Daniel Wilson?'"

"I do."

"Intimately."

"Then follow this road till you see a house that looks as if it belongs to Daniel Wilson, and that will it be?" I thanked him, and, following his directions, had no difficulty in identifying the house. It had a window which contained some trace of a pattern which I knew Wilson considered peculiarly Scottish."

Says Far All.

The story of the week at Ottawa centres about the doing of Captain Tom Wallace, the Parliamentary heavyweight on a Bank street car. Tom was sitting quite comfortably in his seat, looking out of the window, and dreaming of his little general store, with the kerosene oil lamp, away back in Woodbridge. The car was crowded, and a woman with a baby sat across with her arms filled with Christmas presents. Tom gallantly rose and accommodated the new-comers with seats!

More Deadly Than the Plague

The common cold is held responsible for multitude of human ills. Catch cold, people think, When not avoided, they plagues, hurried from the system by keeping the filtering and excretory organs active.

We write us that nothing helps them as quickly get rid of a cold as Dr. Chase's Kidney and Liver Pills. This is because these pills act directly on the liver, kidneys and bowels and promptly bring their activity.

If you are in a weak condition, when colds come, hurry to take Dr. Chase's Kidney and Liver Pills. This is because these pills act directly on the liver, kidneys and bowels and promptly bring their activity.

Mr. J. H. Gibbard, Mission City, B.C., writes—"I have used Dr. Chase's Kidney and Liver Pills for many years and think they are the best thing as a family medicine. They're going to start the New Year right to the health right, and Mr. William Gamble, a well known neighbor, now here, is telling his neighbors how he got his health back.

"I am a farmer sixty-seven years of age," Mr. Gamble says, "and I suffered with a fever off and on for ten years. I had several boxes of Dodd's Kidney Pills, and they made a new man of me. Dodd's Kidney Pills are the best medicine I have ever taken."

Dodd's Kidney Pills will make a new man of you, because they make the kidneys strong and healthy and able to do their work of cleaning the body. It means more life. It means more strength and energy all over the body.

Dodd's Kidney Pills cure all forms of kidney disease, from Bright's Disease to Bright's Disease. They are also a great work by giving renewed health and energy to thousands of Canadians who are run down, tired and generally feeling no good for nothing. Start the New Year by taking the Kidneys with Dodd's Kidney Pills. It will pay you.

Rod and Gun

Some of the many joys of the Canadian winter form the predominating feature of the February issue of Rod and Gun in Canada, published by W. J. Taylor, Limited Woodstock, Ont. A snowshoe tramp is not only enjoyable but likewise health-giving and as a recreation cannot be surpassed when such a tramp can be taken in the winter wood, which have charms and glories all their own, the fascinations of the outing are unequalled, and he who has failed to indulge in such pastime has missed much that goes to make life worth living. Beyond the winter joys there is so much well worthy of attention. Hunting in the land of the Caribou-Newfoundland well describes the attraction of that island to the big game hunter; while the advantages of Quebec, of Nova Scotia, of British Columbia and of both old and New Ontario for game and game fish are recorded by those who have had experience and recount their experiences for the pleasure and profit of their fellow sportsmen. An illustrated description of a portion of the mountain section of the Grand Trunk Pacific goes to show that in scenic beauties Canada's new transcontinental is going to rival any other route. There is also a wealth of further articles on sporting matters and the large army of trap-shooters will be particularly interested in an illustrated account of the Hamilton Winter Tournament. Altogether this number has only to be seen to recommend itself, as the finest exponent of Canadian outdoor life in its many phases now published.

HILL IN VANCOUVER

VANCOUVER, B.C. Feb. 14—C. P. Hill, the well known coal mine operator, is in the city looking for investments. NOTE AND COMMENT

Coleman could well afford to spend five hundred dollars on publicity.

We hope more citizens will attend council meetings. This is the second time of asking.

Some of the councillors are striving to outdo each other in making themselves easy marks for aspiring aldermanic candidates.

The hope and prayer of the Miner is that the coming board of conciliation will remove permanently all causes for industrial disputes. The present conditions are apt to be trying on one's nerve and pocket book.

We gave Champ Clark credit for having a large amount of common sense on national issues. Evidently his enthusiasm carried him too far when he gave forth his dreamy phrases on annexation.

Reformation

Busy days are lookin' up,
The old ones growin' worn;
We start in to reform
Some other man's affairs;
That other man finds me in line
To add unto his care.

And so it goes, until, "is said,
With grim, satiric boast,
A person who first did reform
Must be reformed the most!"
And hopes which beamed so brightly
once

In troubled mist are lost.
For New Year resolutions seem
To get their wings crossed.

INDIAN SHOES.

White and Red Men Alike Wear Moccasins in the Far North.

The moccasin is better foot-covering than one would think who never owned it. In the off-for country, where the Hudson Bay men live, the moccasin is worn by white and red men alike. One has seen two members of Parliament talking on the street, each wearing the native moccasin! All of the Hudson Bay Indians wear moccasins and who in some way manage to endure the discomforts of travel over the stony beaches. Gravel is the worst thing to walk on in time you are wearing moccasins. They do not have to release his shoes or shift the wrinkles in his socks. He walks with all his feet. If you will go out in the winter, you will moccasin a month or two, walking a few hundred miles, you will be surprised when you come back to discover a change in your carriage. You will stand more easily on your feet and will not sag back in your chair in the clumsy attitude that all city men have.

The Cree moccasin, like that of the Chippewa, has a straight seam down the upper front. It does not fold flat, roll down like the Chippewa shoe, but its flap comes up around the ankle, folding in front and being held in place by thongs.

The average moccasin of the sportsmen's goods store is of the Eastern Indian model, with the sole brought up in a rolled edge and no seam down the front. This moccasin is usually made with a Creemore flap, which, of course, is fastened precisely like a shoe.

Medical Officer's Report
(Continued from Page 1).

apartment for seven (7) people. In this the stove pipe is running along inside the next roof, thus endangering the lives of the inmates, as well as that part of the town from fire. No. 82 is very dirty with privy seepage under the building making it a breeding place for Typhoid Fever.

In Slay Town No. 65 shack is without a chimney; left orders to have chimney built, as in present state the lives of the inmates are endanger.

In No. 106 I found that many people are using water from a well which is in close proximity to a number of Privies. When the spring opens the surface drainage will no doubt pollute this well and make it a source of danger. I would recommend that it and other wells in that vicinity be closed and the town water be put in.

To the East of the town C. Badwick's shack was visited and found it very small and four (4) men occupying one room and this is in a very filthy condition. Ordered it cleaned up. We visited John Kubin's property 16 Main St. and ordered well closed there, also visited the Palm gave orders to have the sink closed, also gave orders to occupants of Evans's premises near the Post Office to cease throwing slops at the back door as they were draining into adjoining cellar. We visited Mr. Disney's two rows of cottages in West End between 1st and 2nd streets and found them clean and inmates living under proper sanitary conditions.

For the better well being of the town I would recommend that all the shacks on 2nd St. East of Olivia's store be cleaned or closed as under present conditions they are unfit for human habitation and are a menace to the town from disease.

I would like to speak of Bush Town although it is not in my jurisdiction. I would recommend that the town find some other dumping ground for refuse as it is not only unsightly but dangerous to the people living in that vicinity. I have notified the Provincial Health Officer of the conditions prevailing in that section and hope that he may be induced to do some "house-cleaning" there.

I also visited the public schools, and found the school house in good condition. It is well heated, ventilated and lighted but would recommend scrubbing the floors and wood work with disinfectants twice a month, and dusting with wet antiseptic cloths, and fumigating every three months. The children all looked clean and

tidy and apparently free from disease. I would however recommend that the teachers give regular lessons in Hygiene and also that a systematic medical inspection of the children be held, as this is one of the ways to weed out Tuberculosis and its attendant diseases which are so frightfully common and fatal in our land. I was very glad to notice in the last Miner that the school board is alive to the general welfare of the children in recommending a Sanitary Drinking Fountain and proper Fire Alarm. In regard to the latter as a better protection in case of fire I would recommend that the doors be all made to open outwards instead of inwards.

Mr. Bradford's family who were quarantined for Scarletina have had their house thoroughly cleaned and fumigated and the quarantine raised. Mr. Crawford's family who were also quarantined for the same reason, have had their dwelling cleaned and fumigated and quarantine raised. I am very glad to report no new cases of Scarletina. The general health of the town seems to be very good with the exception of an outbreak of La Grippe.

Respectfully Submitted
A. E. Porter M.D.
Health Officer

University Subdivision

IT IS now a certainty that there will be an electric road between Calgary and Banff in the very near future, a charter has been applied for. Work is to begin on the road, June the 1st next. This road will run right through the above Subdivision, which will be Calgary's swell residential annex. We are selling lots in this subdivision to-day at \$100 to \$125, and by the 1st of July they will be at least double in value. Any person sending us \$5 at once, will have a reserve location for whatever amount of lots they would like. Send your name to-day as this Subdivision is going faster than any that has been put on the market for some time.
